

LAMBEAGE HALL NEWS

PUBLIC MEETING the meeting held on 13th July was well attended and decided, almost unanimously, to proceed to obtain planning permission to replace the current hall.

Here is an idea of what we could build.

We have been offered a grant of 80% of the £15,000 cost by WCLAG, and the Hall itself will provide £1,500, we will need to raise another £1,500 by 2013. *This grant is part funded by 'The European Fund for Rural Development'*

Richard Thomas of RTP Surveyors has been selected from three architects to pursue the work, and he attended the meeting and described his ideas. As he proceeds we will have a further public meeting in September/October to review his outline design.

HOW CAN YOU HELP?

We know that not everyone wants to be involved in the work (volunteers are more than welcome). BUT we need some way to show the commitment of the village to project. We also need to raise £1500.

Most of us take a Sunday paper costing £2 per week. If YOU were able to make a; **similar, regular, modest, donation** to the plan by standing order, it would both raise money and demonstrate to grantors YOUR support to rebuilding the hall. We will be grateful for ANY regular amount,

A standing order and gift aid form is printed on the rear of this news letter. Gift Aid will increase taxpayers' contributions by 28%. Please complete it with whatever donation you can afford and send it to Tim, who will keep all contributions in an account set up for the rebuild.

The Hall is old and decrepit and the Lambeage will have its centenary in 2022, let us have it replaced by then! We sincerely believe that a new hall will generate new uses and new users, as has Porthallow Hall.
